

Drill Doctor

The Drill Bit Sharpener

All Drill Doctors:

- Designed for durability and has the flexibility required to sharpen the largest range and most sizes of dull or broken bits, including split points and masonry bits
- Longer jaws hold bits more precisely and the jaw guides eliminate twisting on small bits
- New "Push to Stop" design on the drill point splitting port will allow you to over split the bit point
- Cast aluminium point angle shuttle for added durability
- Sharpens high speed steel, carbide, cobalt, TiN-coated and masonry bits

The DD750X Model Also Includes:

- One chuck sharpens all sizes 3/32" – 3/4" at angles of 115 through to 140 degrees
- Adjustable material take off allows users to change the amount of bit material that can be removed to further extend the life of your bits
- Metal sharpening tube
- New permanent magnet motor produces consistent power, regardless of speed or load
- The precision and accuracy of the DD750X makes this our top of the line model
