

# Additional Products

#### Handrail Standards

Solid standards are of all-welded construction similar to tubular construction.

Tubular Type			
	Ball Dia	Shank Size	Rail Size
TL Light Duty	63	24 N/B	25 N/B
TM Heavy Duty	63	32 N/B	25 N/B
TH Heavy Duty	75	38 N/B	32 N/B

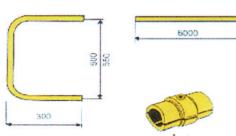

Ball centres normally 550 or 500 Handrail sticks (drilled but not foot) are: 550 x 700 or 500 x 700 B A B A

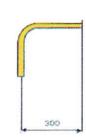

### Handrails

Standard handrail from stock

25 N/B 32 N/B 38 N/B

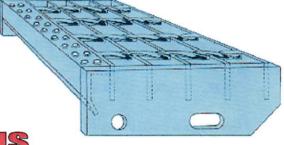

Straight Connector

### Treads

We produce steps with the same bearing and cross bar dimensions as our forge-welded gratings. They are always supplied with non-slip grooved special nosing.

Fixings

Fixings are available for all types of grating and for any support details which are in use.

Suppliers of all Steel to Industry Fonthill, Lucan, Co. Dublin, Ireland. Fax: 353-1-6262533

#### SUREWELD METALS LTD.

## **Industrial Grating**

BS4592: Part 1 (1987)

Indentifies the design load for floor grating based on the use of the walkway

Light Duty

Access by one person

- 3 kN/m<sup>2</sup>

General Duty

Regular two-way

-5 kN/m<sup>2</sup>

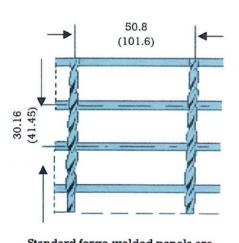

pedestrian traffic

Heavy Duty

High density pedestrian traffic -7.5kN/m<sup>2</sup>

The table below indicates the suggested floor grating section for walkway widths or beam support

We have used 41/100 type as being the most economical

Standa	ra iorg	e-mergec	i paneis a	re
supplied	6100 x	1000mm	(nominal	size)

Section	3kN/m²	5kN/m <sup>2</sup>	7.5kN/m <sup>2</sup>		
20 x 3	1075	925	800		
25 x 3	1350	1150	1000		
30 x 3	1625	1375	1200		
$40 \times 3$	2100	1825	1600		
50 x 3	2500	2200	2000		
20 x 5	1250	1050	950		
25 x 5	1600	1350	1150		
$30 \times 5$	1925	1625	1420		
40 x 5	2400	2100	1900		
$50 \times 5$	2850	2500	2250
