

## HYDRAULIC DRUM DOLLY

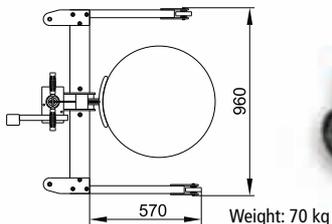

Automatic clamp. Just position the clamp under the tight head of the drum. Both clamping and release are made automatically.

FOR PLASTIC AND STEEL DRUMS OF 200 LITRES.

Suitable for loading drums on most commercial vehicles.  
Lifting and lowering of the load using the foot pedals leave the hands free for the job.  
European pallets fit inside the chassis.

LCS lowering control system.  
"Dead man's" principle operation.  
Safety overload valve.  
Hydraulic stroke limitation.

## DRUM LIFTING CLAMP

FOR 200 LITRE STEEL DRUMS.

Only for tight head drums or removable top drums with covers locked in place.
