

Side Cutter

- ▮ For cutting hard and soft wires
- ▮ Cutting edges inductively hardened
- ▮ Precision cutting edge for the finest wires
- ▮ Cutting edge hardness approx 62 HRC
- ▮ Power transmission with optimum leverage for easy and effortless work
- ▮ Handles with ergonomically shaped SoftGripp multi-component sleeves
- ▮ Made of special tool steel, forged, oil-hardened

SKU: 134-49-160

Technical Data

134-49-160		
◀▶	Length in millimeters	160
◀▶	Length in inches	6 1/4
✂	Cutting edge shape	
⦿	Soft wire - 220 N/mm ² copper, aluminium, plastic - cutting value in millimeters	6
◐	nail, wire nail - cutting value in millimeters	3,5
◑	Hard wire - 1800 N/mm ² wire rope fibre, steel rope - cutting value in millimeters	2
⊗	Cable - Al + Cu multi-wired conductor single and stranded conductor - cutting value in millimeters	11
<u>DIN</u>	DIN standards - National, European and worldwide	DIN ISO 5749

 Weight in Grams	205
 EAN Code	40 03758 43406 2

General Information

Finish 49

Say goodbye to annoying reflections! These anti-dazzle matt chrome-plated industrial-grade tools are the ideal choice when you are working in environments with bright external light sources. Our pliers, cutters and wrenches with the high-quality 49 finish are also supplied with our new SoftGripp 3K sleeves. The triple zone sleeves provide a firm grip which is pleasant to the touch, thanks to ergonomically designed handles. The various pliers in the 49 design are made from tool steel, special tool steel or chrome vanadium steel as well as drop-forged and oil-hardened. The cutting edges of all these cutting tools are induction-hardened to ensure that they can cope with the needs of professionals in industry and the trades.

Keeping a grip on the matter in hand

Assembly jobs in high places offer not only excellent views but also serious challenges. Here, where freedom of movement is restricted, every move the worker makes must make sense and the safety of the workers, machines and tools must have priority. NWS industrial tools enable workers to keep a grip on things. Their ergonomic design reduces work effort, when working overhead, for example. With the tools secured with the SystemClip, they are guaranteed not to fall if dropped, which makes work safer and easier.
